Professional Profile

Tech Lead Frontend / Fullstack Developer with 8+ years of experience building e-commerce solutions and scalable web applications.

Specialized in high-impact frontend (PLP, PDP, Checkout) using VTEX, React, and modern architecture, complemented by backend experience in Node.js, Python, Go, and PHP.

I build scalable solutions, lead technical implementations, and optimize performance with direct business impact.

Experience

Tech Lead Frontend — Vinneren (Grupo AXO)

 Nov 2024 – Present

Leading a technical team responsible for e-commerce implementations across multiple international brands.

Responsibilities

- Technical leadership and team coordination
- Definition of scalable frontend solutions
- Direct interaction with clients for requirements and technical decisions
- Implementation and optimization of features on VTEX

Impact

- Worked across 10+ international brands including Guess, Tommy Hilfiger, Coach, Victoria's Secret, and Bath & Body Works
- Improved development workflows through internal automation

Key Achievements

- Built an internal CLI to optimize VTEX workflows and improve team productivity
- Actively contributed to technical decision-making and architecture proposals

Senior Fullstack Developer — Corebiz

 Feb 2023 – Nov 2024

Developed frontend and backend solutions for e-commerce platforms.

Responsibilities

- Fullstack development on VTEX
- Requirements gathering with clients
- Technical estimations and solution design

Tech Stack

Frontend

- React, Vue, Angular, Vite, Tailwind
- VTEX IO / VTEX Legacy

Backend

- Node.js, Python, Go, PHP

Architecture & DevOps

- Docker
- CI/CD
- Git
- Jira

Professional Focus

- Development of high-impact e-commerce experiences
- Performance optimization (LCP, CLS, UX)
- Scalable solution design
- Frontend-backend integration
- Process automation (CLI, internal tooling)

Additional Training

Platzi

- Frontend Development with React
- Backend Development with Node.js
- Software Architecture

Impact

- Improved performance and scalability across multiple e-commerce projects

Key Achievements

- Implemented new features for Chedraui from scratch

Frontend Developer — Factumex

 Nov 2022 – Feb 2023

Worked on feature development for Baz, the Grupo Salinas application.

Impact

- Contributed to the technical restructuring of the application

Frontend Developer — Corebiz

 Mar 2021 – Nov 2022

Built interfaces and features for e-commerce projects.

Responsibilities

- Developed React-based views
- Worked on VTEX IO implementations

Impact

- Contributed to projects for Elektra, Walmart, Chedraui, and Grainger

Key Achievements

- International collaboration on the OnCity project (migration to VTEX IO)
- Developed modules for admin tools and integrated applications

Education

UAM — Bachelor's Degree in Information Technology and Systems

 2018 – In progress

(Credits completed: 447/459)

- Databases
- Fullstack Development

Languages

- Spanish: Native
- English: Basic (A2)
